

City of Edina

Construction Update No. 10

Country Club Area Sewer, Water, and Street Reconstruction Project

City Improvement No. A-213 and A-214

October 24, 2008

This update is only for homeowners along Edgebrook Place and Country Club Road east of Casco Avenue. Past City Extra's have stated that if Palda damaged your irrigation, pet containment, or driveway heating system(s) the City would cover the cost of its repair **one time only**.

If Palda damaged your system(s), you should **now** hire your own contractor to perform the necessary repair(s). Also, your contractor must **now** obtain a City purchase order number from me **before** doing the repairs.

The project team would appreciate if your contractor could complete their work within the period given in the table below.

Work Item	Date
Start System(s) Repair	Monday October 27, 2008
Finish System(s) Repair	Saturday November 1, 2008

If your contractor is now too busy winterizing their other customers system(s) to repair your system(s) this fall, they can perform your repair(s) during spring 2009. However, Palda will install sod in front of your home no later than the week of November 10. If your contractor chooses to wait until spring 2009 to perform your repair(s), they will have to perform the repair(s) **without** damaging the new sod.

Your contractor **must** submit their invoice for the work they do at your home to the City of Edina, Engineering Department, Attention: Sharon Allison at 4801 W. 50th Street, Edina, MN 55424-1394. City staff will review the invoice to verify their work was for repairs associated with Palda's activities. If the outcome of their review is satisfactory, the City will pay your contractor directly.

Call or e-mail me at SEH with your questions and concerns, 952.912.2633 and cmillner@sehinc.com.

Sincerely,

Chad Millner, SEH
