

Construction Update No. 1D
Country Club Area Sewer, Water, and Street Reconstruction
Project
City Improvement No. A-213 and A-214

July 29, 2008

This update is for Stage 2 homeowners only. The July 10 City Extra stated that if Palda damaged your irrigation, pet containment, or driveway heating system(s) the City would cover the cost of its repair **one time only**.

The Extra went on to state that if Palda damaged your system(s), you should **now** hire your own contractor to perform the necessary repair(s). Also, your contractor must **now** obtain a City purchase order number from me **before** doing the repairs. However, we told you to wait for further direction from us before telling your contractor to start working.

Your contractor **must** complete their work within the period given in the table below.

Work Item	Date
Start System(s) Repair	Monday, August 4, 2008
Finish System(s) Repair	Saturday August 9, 2008

Your contractor must **not** slow down Palda's progress.

Your contractor **must** submit their invoice for the work they do at your home to the City of Edina, Engineering Department. City staff will review the invoice to verify their work was for repairs associated with Palda's activities. If the outcome of their review is satisfactory, the City will pay your contractor directly.

Call or e-mail me at SEH with your questions and concerns, 952.912.2633 and cmillner@sehinc.com.

Sincerely,

Chad Millner, SEH
