South Garden Estates Neighborhood Reconstruction

Dear Resident,

Crews will return on Friday to complete the grading and black dirt behind curb and gutter on Wooddale Avenue as well as Dunham Drive.

Crews will be onsite on Monday to begin installing the new sod on site. I believe Centerpoint Energy has hired our sod contractor to replace sod areas damaged by their upgrades. This will be good, as all the sod will be replaced at once. This work will take about a week to complete. Please refer to your "Caring for your new sod fact sheet" that was delivered to your homes last week. It will give you great information on how to achieve the best looking lawn possible. Only the sod damaged by the construction will be replaced. If you had your entire driveway upgraded by a private contractor, you will be responsible for the grading and restoration around your new driveway. We will only repair what was part of the project.

Keep in mind only residents with existing working irrigation/pet systems damaged by the reconstruction can send a bill in to have it covered by the City. If you are installing a new system, these expenses can not be reimbursed.

Please remember this schedule is weather dependent and therefore, can change on a daily basis. As always, please feel free to contact me if you have any questions. I can be reached in the office at 952-826-0444 or akuznia@ci.edina.mn.us

The City of Edina as well as Midwest Asphalt and the rest of the crews would like to thank you for your cooperation during this project.

Aaron Kuznia - Project Inspector / Project Manager, City of Edina
