Carsons Hill Neighborhood Reconstruction

Dear Resident:

Today Midwest Asphalt has started on the sanitary sewer repairs on Kaymar Drive. I have given the Contractor some advance notice slips that he will be hand delivering to the homeowners that will be affected by the work and will need to move their cars out of the driveways prior to 7:00 am that day. He has been instructed to hand these out a day in advance.

Once they have completed these repairs they will start working on fire hydrant replacements in the neighborhood. The water to your homes will need to be shut off to do this work. If the shut off affects you, the contractor will notify you a day in advance by hanging a notice on your front door that will tell you the shut off time and duration of the shutdown. The shut offs typically are done after 8:00 am, and crews work to get the water system back on as fast as possible.

Water main reconstruction and hydrant replacements in the neighborhood may cause rust colored water to come out of your faucets. This is normal occurrence with watermain improvements. To remove the discoloration, flush all your faucets at the same time.

Safety

Please remind your children to stay away from construction sites, construction machinery, and stockpiled materials. These sites, machines, and materials can be dangerous. Job site safety is our number one concern.

Who to Contact in an Emergency

During a life or property-threatening emergency, call 911. If construction equipment or materials need to be moved as part of dealing with the emergency, 911 has a list of the contractor's emergency contacts. If it is not an emergency, you can also get a hold of the Edina Police Dept. on their non-emergency phone number at 952-826-1600.

Who to Contact with Questions and Concerns

As always, please feel free to contact me if you have any questions. I can be reached in the office at 952-826-0448 or jfrahm@ci.edina.mn.us

The City of Edina and Midwest Asphalt, Inc. would like to thank you for your cooperation during this project.

Jeff Frahm - Project Manager, City of Edina
