Killarney Shores Neighborhood Reconstruction

Dear Resident:

The contractor will continue working on Killarney Lane removing the old roadbed Monday. Please be aware of the truck traffic involved with the grading process. Crews will notify you prior to working in front of your driveway because you may not be able to access your driveway during the excavation. If need be, they will arrange a place for you to park. By the end of the day you will have access to your driveway. Feel free to talk with the crew onsite if you have questions or concerns about access.

Next week the contractor will be doing some fine grading in the entire neighborhood and getting ready for the first layer of asphalt which is tentatively scheduled for next week Thursday or Friday.

Once the first layer of asphalt has been placed the contractor will start restoring black top driveways and restoring the boulevards and getting ready for sod.

Safety

Please remind your children to stay away from construction sites, construction machinery, and stockpiled materials. These sites, machines, and materials can be dangerous. Job site safety is our number one concern.

Who to Contact in an Emergency

During a life or property-threatening emergency, call 911. If construction equipment or materials need to be moved as part of dealing with the emergency, 911 has a list of the contractor's emergency contacts. If it is not an emergency, you can also get a hold of the Edina Police Dept. on their non-emergency phone number at 952-826-1600.

Who to Contact with Questions and Concerns

As always, please feel free to contact me if you have any questions. I can be reached in the office at 952-826-0448 or jfrahm@ci.edina.mn.us

The City of Edina and Northwest Asphalt, Inc. would like to thank you for your cooperation during this project.

Jeff Frahm - Project Manager, City of Edina
