McCauley Heights Neighborhood Reconstruction

Dear Resident:

The restoration phase of the project is nearing completion. There are a few items that are still left to be completed like landscape rock, mulch and fabric. This work is scheduled to be finished by the end of next week. Please run your irrigation systems and let me know if there are any repairs that need to be completed from damage done by the construction.

Please remember the contractor is **ONLY** responsible for watering the sod for the first 42 days. Your assistance is very important to ensure healthy grass – especially during the hot summer months when new sod is easily stressed without adequate water.

Once all work has been completed in the restoration phase, the contractor will place the final layer of blacktop on you street. At this time, this work is anticipated the week of August 8th, 2011.

Safety

Please remind your children to stay away from construction sites, construction machinery, and stockpiled materials. These sites, machines, and materials can be dangerous. Job site safety is our number one concern.

Who to Contact in an Emergency

During a life or property-threatening emergency, call 911. If construction equipment or materials need to be moved as part of dealing with the emergency, 911 has a list of the contractor's emergency contacts. If it is not an emergency, you can also get a hold of the Edina Police Dept. on their non-emergency phone number at 952-826-1600.

Who to Contact with Questions and Concerns

As always, please feel free to contact me if you have any questions. I can be reached in the office at 952-826-0448 or jfrahm@ci.edina.mn.us

The City of Edina and Northwest Asphalt, Inc. would like to thank you for your cooperation during this project.

Jeff Frahm - Project Manager, City of Edina
