

Construction Update No. 1
McCauley Heights Neighborhood Reconstruction
City of Edina Contract No. ENG 11-9

May 13, 2011

McCauley Heights Neighborhood Reconstruction

Dear Resident:

The Edina City Council has awarded the roadway and utility construction project in your neighborhood to Northwest Asphalt, Inc. As part of the construction process, private utility companies have started their work in your neighborhood. The major upgrades of private utilities will be replacing a few gas service lines and cable service lines to your home. CenterPoint Energy and Comcast Cable have hired their own contractors to upgrade these utilities. Keep in mind that these are a separate private utility upgrade that is not directly associated with your neighborhood project. They will have a project superintendent onsite to assist you with getting your service lines upgraded.

As the private utility upgrades near their completion, we will begin with the neighborhood reconstruction project. At this time, crews plan on starting the work in your neighborhood the week of **May 23, 2011**. We'll be able to provide a more detailed construction schedule with the next update letter. Our initial work will involve the replacement of fire hydrants, sanitary sewer repair work, and storm sewer upgrades. Hydrant replacements will require temporary shut downs to water services in the neighborhood for part of the day. You will be notified of these shut downs at least a day in advance by the contractor.

Communication

To better communicate the overall happenings of the project, the City has introduced the City Extra e-mail notification service. This service is free and allows individuals to sign up to receive e-mail messages from the City on a variety of topics. To sign up for the service go to the City Extra website at <http://cityextra.cityofedina.com> and place a check mark in the box next to "**McCauley Heights Street Reconstruction**". Please contact the City at 952-927-8861 if you are having trouble signing up for City Extra.

We will update the City Extra e-mail notification system on a weekly basis for this project. These updates will be brief but will cover the weekly street reconstruction highlights. All residents, including those signed up for the e-mail notification system, will continue to receive paper copies of the construction update letters by regular mail on a monthly basis.

Please contact the project inspector, Jeff Frahm, if you have questions or comments regarding this project at 952-826-0448 or by email at jfracm@ci.edina.mn.us

The City of Edina and Northwest Asphalt, Inc. would like to thank you in advance for your patience and cooperation throughout the project.

Thank you,

Jack Sullivan
Assistant City Engineer
