## **Pamela Park Neighborhood Roadway Improvements**

Dear Residents:

Please note that this update is divided into two sections. The first section, Overall Updates, contains important information pertaining to all residents, while the second section, Phase Updates, contains specific information pertaining to particular residents.

### **OVERALL WEEKLY UPDATES**

#### **Safety**

Please remind your children to stay away from construction sites, construction machinery, and stockpiled materials. These sites, machines, and materials can be dangerous. Job site safety is our number one concern.

#### **Who to Contact in an Emergency**

During a life or property-threatening emergency, call 911. If construction equipment or materials need to be moved as part of dealing with the emergency, 911 has a list of the contractor's emergency contacts.

#### **Who to Contact with Questions and Concerns**

The City of Edina has received a number of requests to meet one-on-one to discuss disturbed boulevard areas. Please call me, Chad Millner, SEH's Resident Project Representative, to schedule a one-on-one meeting or to discuss other concerns or questions

My telephone number and email address are 952.912.2633 and cmillner@sehinc.com. If you get my voicemail when you call, please leave a message. I check my voicemail regularly throughout the day, and even on the weekends.

If I do not have an answer for you, I will route your question or concern to the City, contractor, or other SEH staff members. Once I have your answer or information, I will call you back.

#### **Special Events**

Please now contact me if you have any special events planned this summer that may require special access needs to your home during construction activities. Such activities could be graduation parties, garage sales, weddings, medical deliveries, house moves, large home remodeling projects, etc. The contractor will work with you as best they can to accommodate your event into their reconstruction schedule.

### **PHASE UPDATES**

#### **Phase 1**

**(Streets between W. 58<sup>th</sup> and W. 60<sup>th</sup>, not including W. 60<sup>th</sup>)**

### **Streets and Driveways**

Due to the weather, the contractor was unable to install the blacktop driveway pavement behind the new concrete driveway aprons. The current schedule has the contractor installing the blacktop driveway pavement later during the week of June 21.

The contractor will coordinate driveway access with you. You will have access to your driveway approximately 1 hour after the blacktop driveway pavement has been installed.

### **Restoration**

During the week of June 21, the contractor will finish backfilling the area behind the concrete curb and gutter in anticipation of the placement of new topsoil and sod. Before the placement of the new sod, the contractor will fix any irrigation systems that were damaged as part of the project. If your irrigation system is damaged, please contact me so it can be repaired.

### **Phase 2**

**(Streets between W. 60<sup>th</sup> and Valley View Rd / W. 62<sup>nd</sup>)**

### **Construction Start Date**

The approximate start date for Phase 2 is July 5. Please stay tuned for an exact date as we continue to complete Phase 1.

Thanks for your continued patience and please remember schedules are weather dependent.

Sincerely,

Chad Millner, PE  
SEH Resident Project Representative
